

SULLIVAN RENAISSANCE

2010 TECHNICAL ASSISTANCE GRANTS

This program is designed to provide grants to Sullivan Renaissance groups or municipalities needing professional expertise and assistance with engineering and design, conceptual renderings or organizational development.

A limited number of matching grants will be available. Grant amounts will typically range between **\$500 and \$2500**, but will not exceed \$5000. Grant requests over \$500 require a 50% match, through either cash or in-kind services. In most cases, upon completion of the design or rendering, Sullivan Renaissance will pay the consultant directly for our share of their fee.

Types of projects that will be considered for funding include:

- Hiring a landscape architect to design a community park or garden project
- Landscape plans for new building construction, new developments and additions
- Retaining the services of an architect to prepare plans for a building restoration
- Hiring a lawyer to prepare incorporation papers
- Retaining the services of an accountant to prepare 501(c)(3) application paperwork
- Hiring a consultant to help a non-profit board formulate a strategic plan
- Other technical assistance needs in consultation with Sullivan Renaissance staff

Proposals and all relevant documentation will be accepted beginning **February 1, 2010** and will be considered on a first come, first served basis as funds continue to be available. Applications will be reviewed by staff and applicants will be notified within approximately 30 days whether they have been approved.

For more information, and to submit a grant, contact:
